

# COMMUNITY DRUG ALERT

March 1<sup>st</sup> 2023

## Toxic Drug Supply- Four suspected drug overdose/poisoning related deaths

- From February 22<sup>nd</sup> to 26<sup>th</sup> four suspected drug overdose/poisoning related deaths occurred in Waterloo Region.
- One suspected drug overdose/poisoning death was related to red or “red-rainbow” coloured fentanyl.

### IF SOMEONE OVERDOSES:

1. Call 911.
2. Administer naloxone if an opioid drug overdose/poisoning is suspected.
3. Perform rescue breathing and/or chest compressions.
4. Do not give any other substance(s) because this can make the drug overdose/poisoning worse.
5. If no improvements, continue to give naloxone 2-3 minutes apart until paramedics arrive.
6. If you have to leave the person unattended, put them in the recovery position.

### IF USING SUBSTANCES:

- Never use substances alone. If using with a friend, do not use at the exact same time or use the National Overdose Response Service (NORS) at 1-888-688-6677.
- Try a small amount first and use less drugs when your tolerance may be lower.
- Avoid mixing substances – do not use other downers (e.g. benzos, alcohol, and other opioids).
- Have naloxone ready and know how to use it.
- Use at the Consumption & Treatment Services (CTS) site at 150 Duke Street West (Open 7 days a week, 9am-9pm, 8:30pm last call).
- Anyone who is involved in a drug overdose/poisoning including the person needing help and anyone at the scene is protected from simple possession charges if you call 911 by the Good Samaritan Drug Overdose Act.
